MOB

*Chart maintenance
mode bar*
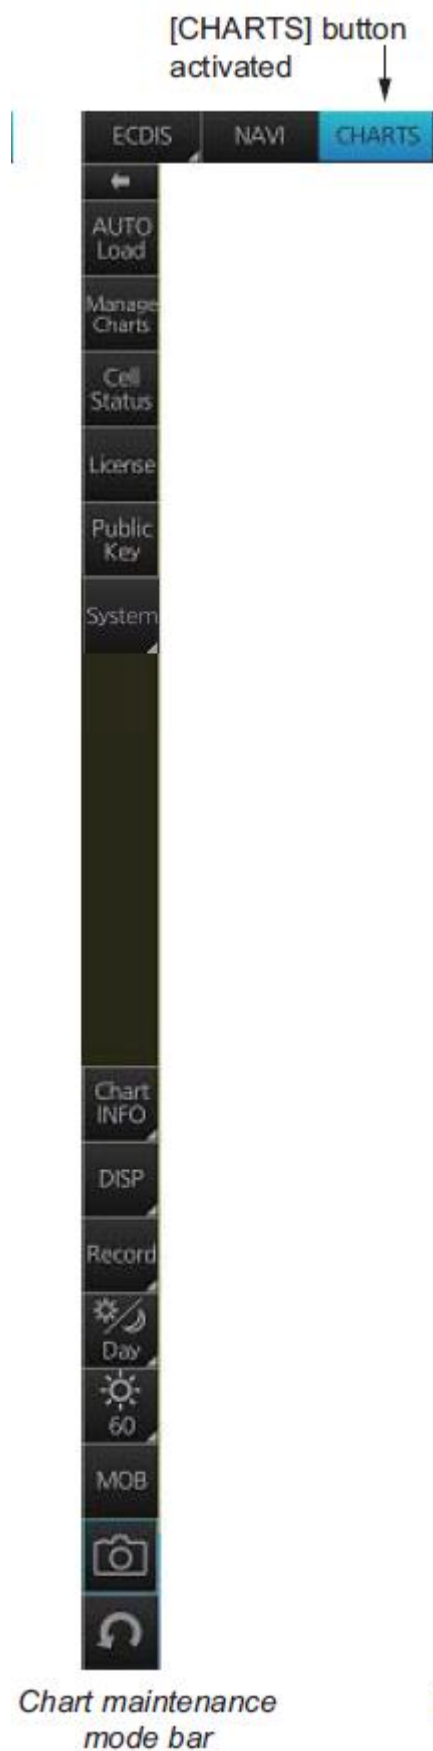

2. **Go to [Sync Config]**
   Make sure that no units are under "Grouped with This Unit:"
   The ECDIS must be under the {Not Syncronize with this Unit:] to disable the synchronization, like below:

   Click close to close this window

3. **Go to [Sync Status] to check the synchronization status**

   Under the Current status: it should indicate Disabled.
   If not then click [Disable Sync]
   "Do you want to disable Sync?" -> OK

4. **After the synchronization has been disabled, please delete everything and then re-import the permit file and the ENC etc.**
5. **If there's still a message "corrupted SENC…" then got to : CHARTS -> System -> Reconvert**
   This action will take time because it reconverts all SENC charts
